# THE 5 BEST WAYS TO TRANSFORM YOUR HOME'S EXTERIOR

## Boost Your Home's Curb Appeal with DIY Exterior Renovations

Enhance your home's look and value with these top DIY exterior projects. While rewarding, some tasks can be challenging. Use this guide to understand the process and know when to call in professionals.

## Update Window Frames and Shutters

Small changes can freshen up your home. Updating window frames and shutters is a great weekend project.

**Time Estimate:** 1-2 days

### Process:

- Remove old shutters.
- Sand and clean window frames.
- Paint or stain shutters and frames.
- Reinstall shutters after drying.
- Seal edges with caulking.
- 

### Tips:

- Match or contrast shutter colors with your home's scheme.

2

## Repaint Your Home's Exterior's scheme.

A fresh coat of paint can transform your home's exterior if you have paintable siding like wood or fibrous cement.

**Time Estimate: 3-5 days**

**Process:**

- Choose a dry, cloudy day.
- Set up ladders and protect areas with drop cloths.
- Clean the exterior and let dry.
- Scrape off peeling paint and sand.
- Apply primer and paint from top to bottom.

**Tips:**

- Use high-quality paint.
- Consider a paint sprayer for efficiency.

3

## Install New Siding

New siding can dramatically change your home's appearance.

Time Estimate: 5-7 days

Process:

- Remove old siding carefully.
- Repair any wall damage.
- Measure and cut new siding.
- Install from bottom to top, overlapping pieces.
- Seal edges and joints.

Tips:

- Fiber cement siding is durable but harder to install than vinyl.

4

## Install Or Paint Gutters

Gutters can enhance curb appeal if they complement your home's exterior.

**Time Estimate: 1-2 days**

**Process:**

- Measure and calculate gutter length.
- Remove old gutters.
- Install brackets and attach gutter sections.
- Seal joints to prevent leaks.
- Prime and paint if desired.

**Tips:**

- Choose contrasting gutter colors for visual appeal.

5

## Replace Your Roof

Replacing a roof is a major project that significantly impacts curb appeal.

Time Estimate: 3-5 days

Process:

- Select a clear, cool day.
- Remove old shingles.
- Repair roof decking.
- Install an ice and water shield, then roofing felt.
- Start shingle installation from the eaves upwards.
- Seal edges and install ridge vents.

Tips:

- Work from bottom to top for proper overlap.

Conclusion

These projects can boost your home's curb appeal and functionality. If any task seems too complex, consult with our professionals at All Building Solutions.
